

DRY ICE PELLETS
9th MEDGRP LABORATORY DEPARTMENT, BEALE AFB
QUESTIONS AND ANSWERS

1. Is this a new Solicitation or is there an incumbent?

This is a follow-on contract.

2. If there is an incumbent, can you please provide Contract # and all information regarding the previous contract like, the full contract amount, if the contract was for the same quantities and for the same PoP?

No incumbent. Was provided under contract number FA468625F0039 which expires as of 20 December 2025

3. As per SOW The vendor shall provide and deliver dry ice pellets to the 9 MDG Laboratory weekly into a dry ice container located in the 9 MDG Laboratory, Beale AFB. Can you please provide more details about this container and if said contractor needs to offload into this container? Or would it be acceptable for said contractor to provide their own container / Tote?

The laboratory will have a container that the dry ice pallets will be offloaded into by the contractor. Please see paragraph in the Statement of Work

4. Is 9 MDG Laboratory, Beale AFB able to accept lbs. quantities greater than weekly delivery of 250 lbs.

No quantity greater than what is listed on the solicitation.

5. The 9 MDG Laboratory, Beale AFB requires weekly delivery of 250 lbs. Can you explain the means of off load on site. Is there a loading dock with ramps to off load or how is this going to be accomplished? Please advise and Provide Pictures to help inform.

It will be offloaded from the side entrance of the clinic which is a hallway that leads to the Laboratory Department. No steps or loading dock.

Under CLIN 0001, the solicitation reflects a start date of March 1, 2027, with three (3) option years. Could you please confirm that this is the correct base period start date and that the contract includes three option years as stated?

The CLINs will be amended to show ordering period.
