

Community Partnership Overview

More than a mission — a movement.

Care. Navigate. Transform.

Prepared for: MDHHS Environmental Health Bureau | April 17, 2026

One coordinated partner. Five service lines. Zero new budget required.

These services exist separately in Michigan — but no single community-based organization in Southeast Michigan coordinates all five under one roof. CWC and DDI close that coordination gap at no cost to MDHHS.

CAUSE WE CARE

501(c)(3) | EIN: 92-3602670

Community trust & navigation layer

MI Bridges-certified navigator. MDHHS enrolled Community Partner. Outreach, education, case navigation, family support, benefits connection across Wayne, Oakland, Macomb, and Washtenaw Counties.

DEE DAVIS INC.

EDWOSB | CAGE: 8UMX3 | NPI: 1538939111

Program administration layer

Contract management TPA. Active CHAMPS provider. Contracts, billing, compliance, laboratory network coordination, and vendor management. Statewide infrastructure.

FIVE SERVICE LINES

1. Drug Testing Compliance Navigation

CPS and drug court families required to test regularly. Many miss appointments. CWC navigates, DDI administers through Quest Diagnostics, Concentra, and eScreen/Abbott.

Cost to MDHHS: Zero | Billed to courts / MCOs

2. DNA & Paternity Testing

Child support cannot be established until paternity is confirmed. CWC navigates, DDI administers through DNA Diagnostics Center — the same lab Michigan Family Courts already use. DDC state contract DTMB #190000001418.

Cost to MDHHS: Zero | Billed to OCS / courts

3. Non-Emergency Medical Transportation

MDHHS families miss appointments due to lack of transportation. CWC identifies the barrier, DDI's DEPOINTE division coordinates NEMT through a zero-fleet, technology-enabled statewide network via Uber Health and Lyft Healthcare.

Cost to MDHHS: Zero | Billed to Medicaid MCOs

4. Lead Screening Follow-Up Navigation

Families with elevated BLL diagnoses are confirmed clinically but often left without support. CWC provides post-diagnosis navigation to remediation resources, medical follow-up, and benefits. DDI administers blood lead screening through Quest Diagnostics.

Cost to MDHHS: Zero | Billed to MCO / EHB

5. Medical & Specimen Courier

Freight 1st Direct — DDI's medical courier division (MC-1647572 / US DOT-4250594) — provides compliant, chain-of-custody specimen transport for drug testing and DNA testing programs.

Cost to MDHHS: Zero | Billed to contracted health systems and laboratories

WHAT WE'RE ASKING FOR

- A referral pathway — when MDHHS identifies families who need community navigation support, CWC serves as the boots-on-the-ground partner
- Program introductions — OCS, Child Welfare, Substance Use, and local health department contacts in Wayne and Oakland Counties

- Subgrant notification — when federal funding flows through MDHHS to SE Michigan CBOs, add CWC to the notification list
