

CONTRACTOR OBLIGATIONS HANDBOOK

Dee Davis Inc.

Policy Number: DDI-HR-002

Version: 1.0

Effective Date: July 25, 2026

Controlled copy: gateway.deedavis.biz/policies/contractor-handbook

1. Purpose & Scope

This handbook describes contractual flow-down obligations for independent contractors engaged by Dee Davis Inc. It does not create an employment relationship.

2. Independent Contractor Status

Contractors are not W-2 employees. DDI does not run E-Verify/I-9 on contractors. Payment is deliverable/milestone-based per the written agreement.

3. Scope Discipline

Perform only work within the written scope. Do not expand into PHI or member-facing tasks unless expressly included and required training/BAA conditions are met.

4. Confidentiality & Buyer Protection

Protect DDI confidential information and authorized PHI/PII. Never reveal end-buyer or solicitation identity to unauthorized parties. See DDI-HR-004 and applicable BAA.

5. Conduct

Follow DDI-HR-003 as a contractual flow-down. Report suspected FWA through channels in DDI-FDR-001 when the engagement is FDR-adjacent.

6. Systems Access

Access is minimum-necessary and engagement-specific. GATEWAY is used for document upload, training, and policy e-sign. Access ends when the engagement ends.

7. Training & Screening

Complete training marked applicable to the engagement. FDR-adjacent divisions require exclusion screening and DDI-FDR-001 acknowledgment.

8. Insurance & Classification

Provide Certificate of Insurance when required. Cooperate with worker-classification documentation.

9. Acknowledgment

Typed-name electronic signature in GATEWAY for DDI-HR-002 confirms agreement to these flow-down obligations (Version 1.0).

ADOPTED FOR COMPANY USE:

Dieasha D. Davis
President & CEO
Dee Davis Inc.
