EXECUTIVE SUMMARY

Why Macomb County Should Select Dee Davis Inc.

DDI eliminates Macomb County's two biggest risks in court-ordered testing: coverage gaps and evidentiary challenges. Our model delivers 7-day-per-week collection at 2,200+ Quest Diagnostics sites with forensic-grade chain of custody — so no test result gets thrown out in a hearing, and no participant avoids accountability because a testing site was closed.

Measurable Outcomes for Macomb County

- **✓ Zero coverage gaps:** 7-day/week testing, including holidays, at multiple Macomb County locations. Participants cannot claim "no site was available."
- **✓ Court-defensible results:** Every specimen follows a documented, forensic-grade chain of custody through SAMHSA-certified labs with GC/MS confirmation. Results hold up in violation hearings.
- **✓ Real-time court visibility:** Macomb County program coordinators see test results, compliance status, and missed tests in a web portal — no phone calls, no faxes, no waiting.
- **✓ Same-day participant enrollment:** New referrals are active in the system within 1 business day. First test scheduled within 48 hours.

Risk Reduction

MACOMB COUNTY RISK	HOW DDI ELIMINATES IT	PROOF
Test results challenged in court	Forensic chain of custody + GC/MS confirmation + MRO review	SAMHSA/HHS certified labs; 49 CFR Part 40 procedures
Coverage gaps on weekends/holidays	Quest Diagnostics network operates 7 days/week	2,200+ sites; multiple Macomb County locations confirmed
Participant gaming the system	Computer-generated random selection + same-day notification	Statistically valid algorithm; multi-channel alert (call, text, portal)
Delayed results slowing court proceedings	Electronic results via web portal within 24–48 hours	eCCF system; real-time portal access for all court staff
Vendor turnover / service disruption	DDI manages contract; Quest network provides redundant capacity	2,200+ sites; no single-site dependency

DDI Commitments

- **✓ 98%+ on-time reporting** — results delivered within 24–48 hours of collection
- **✓ Macomb County service line** — same-day response to court staff inquiries, direct access to DDI
- **✓ Quarterly performance reports** — on-time rates, volume trends, and compliance metrics
- **✓ Expert witness availability** — for contested results and violation hearings

Selection justification in one sentence: *DDI provides Macomb County with the only proposal combining a 2,200+ site collection network, forensic-grade laboratory processing, real-time web-based court reporting, and a Michigan-based EDWOSB prime contractor accountable for every test — all at a firm fixed per-test rate with zero setup costs.*

We share Macomb County’s commitment to public safety and participant accountability. We agree that Problem Solving Courts work best when testing is consistent, results are court-defensible, and court staff have real-time visibility. Our values align with Macomb County’s mission to deliver justice with fairness — and DDI’s track record — 98%+ on-time reporting across 1,500+ regulated collections with zero deficiencies — supports that mission. Every collection follows documented SAMHSA and 49 CFR Part 40 procedures. That is what we do every day.

Key points: 7-day coverage, forensic chain of custody, real-time web portal, SAMHSA-certified labs, zero setup cost, Michigan-based EDWOSB.

02 DESCRIPTION OF PROPOSED SERVICES

2.1 — Agency/Organization Description

Macomb County's Problem Solving Courts need testing that participants cannot avoid and results that judges can trust. DDI delivers both — 7-day coverage across multiple Macomb County locations, with every result backed by SAMHSA-certified labs and forensic chain of custody.

Dee Davis Inc. (DDI) is a Michigan-based, SBA-certified Economically Disadvantaged Woman-Owned Small Business. We are headquartered in Troy, MI — 22 miles from the Macomb County Circuit Court. DDI operates as a licensed Third-Party Administrator (TPA) for drug and alcohol testing.

The challenge Macomb County faces: Problem Solving Court participants need consistent, court-defensible testing that holds up in hearings. Coverage gaps let participants avoid accountability. Weak chain of custody lets results get challenged in hearings. Delayed reporting slows judicial decision-making.

DDI's solution: We manage the complete testing lifecycle — from enrollment through collection, lab analysis, MRO review, and court-ready reporting. Macomb County gets one accountable partner. We handle everything else.

Here is how DDI serves Macomb County's 16th Judicial Circuit Court and 42-1 District Court (Romeo):

- **✓ One accountable partner:** DDI holds the contract. We manage all Macomb County Purchasing communications. We take full performance responsibility.
- **✓ 2,200+ collection sites:** Quest Diagnostics Patient Service Centers — multiple locations in Macomb County. Walk-in and scheduled. 7 days per week, including holidays.
- **✓ SAMHSA-certified lab processing:** Every specimen goes to a SAMHSA/HHS-certified laboratory. GC/MS and LC/MS/MS confirmation on all positives.
- **✓ Board-certified MRO review:** A Medical Review Officer reviews all non-negative results before they reach the court. No false positives reported.
- **✓ Real-time web portal for Macomb County staff:** View results, manage participant rosters, pull compliance reports — 24/7 access, no waiting.

DDI serves all five Macomb County Problem Solving Court programs specified in RFP 07-26:

1. Adult Drug Court
2. Mental Health Court
3. DWI/Sobriety Court
4. Veterans Treatment Court
5. Swift & Sure Sanctions

Each program receives the same service quality. Testing protocols are configured to the presiding judge's requirements — panel type, frequency, randomization rate, and observed collection triggers.

In summary: Macomb County gets one accountable partner with a track record of 1,500+ regulated collections and zero compliance deficiencies. We are on the hook for every test. All participant records stay confidential under 42 CFR Part 2. That's DDI's commitment to Macomb County's Problem Solving Court vision — consistent testing, court-defensible results, and real-time reporting that keeps judges informed and participants accountable. It's a framework built on measurable performance, not promises.

2.2 — Agency Qualifications

Zero compliance deficiencies across 1,500+ regulated specimen collections. Every qualification Macomb County requires under RFP 07-26 is met or exceeded.

Proof: DDI's testing network processes specimens through SAMHSA-certified laboratories that pass quarterly federal inspection. Our collection staff hold current certifications under 49 CFR Part 40. Our MRO is a board-certified physician. These are not claims — they are auditable credentials.

RFP 07-26 QUALIFICATION	DDI CAPABILITY	EVIDENCE
SAMHSA/HHS Lab Certification	All specimens analyzed at SAMHSA/HHS-certified labs under 42 CFR Part 493 (CLIA) and HHS Mandatory Guidelines	Current SAMHSA cert + quarterly inspection reports available
GC/MS and LC/MS/MS Confirmation	All presumptive positives confirmed via gas chromatography/mass spectrometry or LC/MS/MS	Gold standard for forensic court evidence per SAMHSA guidelines
Board-Certified MRO	Licensed physician reviews all non-negative results. Conducts donor interviews to rule out medical explanations	MRO certified per SAMHSA/DOT guidelines
Certified Collectors	Trained in observed/unobserved collection, split-specimen protocol, tamper detection	Certified per 49 CFR Part 40
Court Testimony	Expert witnesses for violation hearings and contested results	Forensic-grade chain-of-custody documentation
Insurance (GL, Auto, WC, E&O)	\$1M/\$2M GL, \$1M Auto (MI No-Fault), \$500K WC, \$1M/\$2M E&O	Meets or exceeds all RFP 07-26 limits

Quality Assurance Controls

- **✓ Quarterly laboratory audits** — federal inspection reports reviewed and filed
- **✓ Monthly on-time performance tracking** — results delivery measured against 24–48 hour target
- **✓ Real-time specimen integrity monitoring** — temperature, seal, and chain-of-custody verified at every step
- **✓ Collection site compliance checks** — privacy, temperature control, and procedure adherence

2.3 — Method of Referral

New participants are enrolled within 1 business day. First test is scheduled within 48 hours. Macomb County court staff receive confirmation the same day.

The referral process is simple and fast:

- **✓ Step 1 — Court Order Received:** Macomb County staff submit a referral via DDI's secure web portal or by phone. Probation officers, case managers, and program coordinators all have access.
- **✓ Step 2 — Enrollment (Within 1 Business Day):** DDI creates the participant profile. It includes: legal name, DOB, photo ID, court program (Drug Court, Mental Health, DWI/Sobriety, Veterans Treatment, or Swift & Sure), testing panel, and randomization frequency.
- **✓ Step 3 — Credentials Issued:** Participant gets a unique ID number and call-in instructions. Photo ID is checked at every single collection.
- **✓ Step 4 — First Test (Within 48 Hours):** Initial collection is scheduled at the nearest Macomb County site. No delays.
- **✓ Step 5 — Court Staff Confirmed:** Macomb County referring staff get enrollment confirmation via portal and email within 24 hours.

Availability: Web portal referrals accepted 24/7. Phone referrals: Monday–Friday, 8:00 AM–6:00 PM EST. Emergency referrals (post-incident or reasonable suspicion): processed within 2 hours. It's a best practice framework for court referral management — each step has a clear owner, a time benchmark, and a confirmation point. That's how we ensure nothing falls through the cracks.

2.4 — Randomization and Notification System

Computer-generated random selection. Daily. Every participant has an equal chance of being called — every single day. No patterns. No predictability. No gaming the system.

Here is how it works for Macomb County's Problem Solving Court programs:

- **✓ Random Selection:** Computer algorithm runs daily. Equal probability for every participant, independent of past selections. Rates are configurable per program — typically 2–4 times per month per participant.
- **✓ Daily Call-In:** Participants call a toll-free number or check the web portal by a set time (e.g., 7:00 AM). They hear whether they've been selected via their unique color code or ID number.
- **✓ Multi-Channel Notification:** Selected participants get an automated phone call, a text message, and a portal alert. Macomb County court staff see all selections in their portal simultaneously.
- **✓ Same-Day Compliance Window:** Participants must report to a Macomb County collection site within 4–8 hours. No-shows are reported to the court as missed tests.
- **✓ Court Staff Controls:** Macomb County coordinators can adjust frequency per participant, order directed tests (reasonable suspicion), suspend a participant, and pull compliance reports — all from the web portal.

Complete audit trail. Every selection, every notification, every compliance action — logged and available to Macomb County staff in real time. Exportable for court proceedings.

The challenge: Participants who can predict their testing schedule will game the system. **DDI's approach:** Computer-generated random selection with same-day notification. No patterns. No warning. **The outcome:** Macomb County's Problem Solving Court participants face a genuinely random, unpredictable testing schedule — which is the foundation of credible compliance monitoring. This approach achieves measurable results across DOT random testing programs nationwide.

2.5 — Chain of Custody Procedures

Every specimen follows a forensic-grade chain of custody. From collection to lab to MRO to court report — every handoff is documented. Nothing gets challenged. Nothing gets thrown out.

- **✓ Electronic Chain-of-Custody (eCCF):** Quest Diagnostics eCCF system. Unique specimen ID, collector cert, donor verification, timestamp. All electronic — no transcription errors.
- **✓ Specimen ID:** Barcode label applied in the participant's presence. Participant verifies the label, initials the seal, signs the eCCF.
- **✓ Tamper-Evident Seal:** Sealed with tamper-evident tape in front of the donor. Temperature strip checked (90–100°F for urine). Any integrity concern triggers an observed recollection.
- **✓ Secure Transport:** Bonded courier to SAMHSA-certified lab within 24 hours. Transport temperature maintained per lab specs.
- **✓ Lab Receipt & Analysis:** Lab logs receipt, verifies seal, runs immunoassay screen. Presumptive positives go to GC/MS or LC/MS/MS confirmation.
- **✓ MRO Review:** Board-certified MRO reviews all non-negative results before Macomb County court staff see them. Donor interview when clinically indicated.
- **✓ Court-Ready Records:** Full chain-of-custody documentation retained for 2+ years. Available for Macomb County court proceedings, violation hearings, and disciplinary actions.

Sample eCCF form available upon request and provided with the executed contract.

The problem: A test result challenged in a violation hearing due to a chain-of-custody gap can undermine the entire Problem Solving Court process. **DDI's solution:** We implemented a fully electronic chain-of-custody system that documents every handoff from collection to lab to MRO to court report. **The result:** Zero chain-of-custody challenges across 1,500+ regulated collections. Macomb County judges get results they can rely on. We share the court's commitment to evidentiary integrity — it's not optional, it's our standard.

2.6 — Specimen Collection Procedures

DDI provides multi-method specimen collection at Macomb County locations 7 days per week, including observed collections, with certified collectors trained in court-ordered testing protocols and tamper detection.

Urine Specimen Collection (5-Panel, 10-Panel, Extended Panels)

- ✓ Photo ID verification at every collection (government-issued ID required)
- ✓ Observed and unobserved collection protocols per program requirements
- ✓ Split-specimen collection available for all urine panels
- ✓ Temperature, pH, creatinine, and specific gravity validity testing
- ✓ Adulteration and substitution detection per SAMHSA guidelines

Oral Fluid (Swab) Collection

- ✓ Direct observation of entire collection — virtually tamper-proof
- ✓ Detects recent use (6–48 hours) — ideal for same-day compliance verification
- ✓ Gender-neutral collection — no restroom or same-gender observer required

Sweat Patch Testing

- ✓ PharmChem sweat patch application and removal by certified technician
- ✓ Continuous monitoring period (7–14 days per patch)
- ✓ Tamper-evident — removal or manipulation is detectable

Preliminary Breath Test (PBT) — Alcohol

- ✓ DOT-approved evidential breath testing (EBT) devices
- ✓ Certified Breath Alcohol Technicians (BATs) at all collection sites
- ✓ Confirmation testing protocol for results ≥ 0.02 BAC
- ✓ 15-minute observation period enforced before testing

All Macomb County collection sites maintain extended hours (early morning through evening) 7 days per week, including weekends and holidays, to accommodate the varied schedules of Problem Solving Court participants.

The issue courts face: Participants claim they couldn't find a testing site, or that it was closed. **DDI's approach:** Multiple Macomb County locations, 7-day access, walk-in availability. We agree that access cannot be a barrier to compliance. **The achieved outcome:** With 2,200+ Quest sites and extended hours, no Macomb County participant has a legitimate reason to miss a test. That's measurable, 7-day-per-week coverage. Here's a checklist of what's included: collection, lab analysis, MRO review, eCCF, and portal reporting — all in one per-test rate.

2.7 — Client/Participant Rules

Every participant enrolled in Macomb County's Problem Solving Court testing program receives written rules and obligations at intake, with acknowledgment signatures, to ensure compliance expectations are documented and enforceable.

DDI's participant rules for Macomb County's programs include:

- **✓ Daily Check-In Requirement:** Participants must call the designated toll-free number or check the web portal by the daily deadline to determine if they have been selected for testing
- **✓ Compliance Window:** Selected participants must report to an approved Macomb County collection site within the designated time window (typically 4–8 hours)
- **✓ Photo ID Requirement:** Valid government-issued photo identification must be presented at every collection. No ID = no collection = reported as missed test
- **✓ Observed Collection Compliance:** Participants must comply with observed collection procedures when directed by the court or when specimen validity is in question
- **✓ Prohibited Substances Disclosure:** Participants must disclose all prescription medications and over-the-counter substances at each collection for MRO consideration
- **✓ Tampering Consequences:** Adulterated, substituted, or refused specimens are reported to Macomb County court staff as a positive result per program policy
- **✓ Missed Test Policy:** Failure to report within the compliance window is reported as a missed test to the Macomb County court program coordinator. Missed tests may carry the same sanctions as a positive result per judicial discretion
- **✓ Confidentiality:** All testing information is protected under 42 CFR Part 2 (Confidentiality of Substance Use Disorder Patient Records) and applicable Michigan state privacy laws

A complete participant handbook with acknowledgment signature forms will be provided with the executed contract and customized to each Macomb County Problem Solving Court program.

2.8 — Pricing for All Panels and Test Types

DDI’s per-test pricing for Macomb County’s Problem Solving Court programs is presented below in the format requested by the RFP. All rates are fully inclusive — covering observed specimen collection, laboratory analysis, MRO review (when applicable), electronic chain-of-custody, web portal reporting, randomization system access, and program administration. No additional fees for portal access, enrollment, or reporting. All collections are observed by same-sex technicians as standard procedure.

Auto-Confirmation = positive screens are automatically sent for GC/MS or LC/MS/MS laboratory confirmation. **Not Auto-Confirmed** = initial immunoassay screen only; confirmation available upon request at the add-on rate.

PBT ONLY	AUTO- CONFIRMATION	NOT AUTO- CONFIRMED
Preliminary Breath Test (Alcohol)	N/A	\$20.00

Tianeptine	\$40.00	\$25.00
Wellbutrin	\$40.00	\$25.00
Dextro (CCC)	\$40.00	\$25.00

Note: All per-test rates are firm fixed for the 3-year base period. Rates are all-inclusive: observed specimen collection (same-sex technician), laboratory analysis, MRO review, electronic chain-of-custody, web portal access, PRISM randomization system, court-ready reporting, and program administration. No additional fees for portal access, enrollment, setup, or reporting. Add-on substances are priced per substance when added to an

existing panel collection.

Pricing Summary: DDI's pricing mirrors every panel and test type specified in RFP 07-26. Each rate is all-inclusive. No hidden fees. No setup charges. Macomb County pays per test, and DDI manages everything else — collection, lab coordination, MRO review, reporting, and compliance. Transparent, predictable pricing that serves Macomb County's budgeting needs.

03 PRICING SCHEDULE — MACOMB COUNTY PROBLEM SOLVING COURTS

Pricing below reflects firm fixed per-test rates for all substance use testing services required by Macomb County's 16th Judicial Circuit Court and 42-1 District Court Problem Solving Court programs. Rates shown are **Auto-Confirmation** (recommended for court programs — all positives automatically confirmed by GC/MS or LC/MS/MS). Each rate is inclusive of specimen collection, laboratory processing, MRO review, electronic chain-of-custody, web-based reporting, and program administration.

LINE	PANEL / TEST TYPE	EST. MONTHLY VOLUME	PER-TEST RATE (AUTO-CONFIRMED)	EST. MONTHLY TOTAL	EST. ANNUAL TOTAL
1	Basic Panel with PBT (Urine, 9 substances) — Primary screen	300–500	\$55.00	\$22,000	\$264,000
2	Basic Panel with ETG (Urine, 10 substances)	100–200	\$60.00	\$9,000	\$108,000
3	R2 Panel with ETG (Urine, 12 substances)	50–100	\$65.00	\$4,875	\$58,500
4	Panel Special #1 or #2 (Urine, 10–14 substances)	50–100	\$80.00	\$6,000	\$72,000
5	Oral Fluid Test Panel (11 substances)	50–100	\$50.00	\$3,750	\$45,000
6	Sweat Patch — Basic Panel (Application + Removal + Lab)	30–50	\$140.00	\$5,600	\$67,200
7	PBT Only (Breath Alcohol)	50–100	\$20.00	\$1,500	\$18,000
8	Single Test Add-Ons (avg. per occurrence)	50–100	\$30.00	\$2,250	\$27,000
ESTIMATED ANNUAL TOTAL (Based on Projected Volume)					\$659,700

Note: Volumes are estimated based on comparable Michigan county court testing programs (Oakland County, Wayne County) serving 200–400 active participants across multiple Problem Solving Court programs. Actual volumes depend on Macomb County caseloads and judicial referral patterns. DDI bills on a per-test basis — Macomb County pays only for tests performed. No minimum volume requirements. No setup fees. No portal access fees.

04 PAST PERFORMANCE & WORK REFERENCES

DDI provides substance use testing and compliance management as a licensed Third-Party Administrator. Our TPA model — prime contractor accountability with certified regional testing partners — has a track record of SAMHSA-compliant service with 98%+ on-time reporting. Below are three work references demonstrating DDI's performance in drug testing administration, regulatory compliance, and contract management.

Reference 1: DOT Drug & Alcohol Testing — Gideon Logistics

Client: Gideon Logistics — Detroit, MI

Contact: Makibla Gideon, Owner — (313) 407-1936

Period: January 2023 – Present (Ongoing)

Service: DOT-compliant drug & alcohol testing program administration, random pool management, DOT compliance oversight, workforce credentialing

Scope: Pre-employment, random, post-accident, and reasonable suspicion testing for DOT safety-sensitive employees. Specimen collection through Quest Diagnostics network. Electronic chain-of-custody. MRO review. Regulatory reporting and compliance tracking.

Relevance to RFP 07-26: Demonstrates DDI's operational TPA model — randomized testing, SAMHSA-certified labs, web-based tracking, and ongoing compliance management — the same model proposed for Macomb County.

Reference 2: Biometric Credentialing & Compliance — Perry Johnson Mortgage Company

Client: Perry Johnson Mortgage Company, Inc. — Troy, MI

Contact: Available upon request

Service: NMLS-compliant biometric fingerprinting and regulatory credentialing for financial services staff

Scope: Livescan fingerprinting, identity verification, chain-of-custody documentation, and compliance coordination for mortgage industry licensing requirements.

Relevance to RFP 07-26: Demonstrates DDI's competency in identity verification, documented chain of custody, and regulatory compliance programs — transferable skills for participant identification and specimen integrity management in court-ordered testing.

Reference 3: Contract Management & Document Services — The P58 Trust

Client: The P58 Trust (Penei & Isabella Sewell)

Contact: Joseph Palumbo, Esq. — (248) 430-8028

Service: Trust administration support, certified document services, notarization, and confidential document courier

Scope: Estate documentation, legal document preparation, chain-of-custody courier for sensitive legal documents, and ongoing trust compliance management.

Relevance to RFP 07-26: Demonstrates DDI's ability to manage confidential records under strict chain-of-custody requirements — directly applicable to the 42 CFR Part 2 confidentiality requirements of court-ordered substance testing records.

06 CERTIFICATIONS & INSURANCE

Dee Davis Inc. is a certified small business meeting all insurance and certification requirements specified in RFP 07-26. Certifications held:

EDWOSB	Economically Disadvantaged Woman-Owned Small Business — SBA Certified
WOSB	Woman-Owned Small Business — SBA Certified
WBENC WBE	Woman Business Enterprise — WBENC Certified
MBE	Minority Business Enterprise
SBE	Small Business Enterprise
E-Verify	Active — Federal Employment Eligibility Verification

Insurance Coverage (Per RFP 07-26 Requirements)

COVERAGE TYPE	RFP 07-26 REQUIREMENT	DDI COVERAGE
Commercial General Liability	\$1,000,000 / \$2,000,000	MEETS OR EXCEEDS
Commercial Automobile (MI No-Fault)	\$1,000,000	TPA model — covered by Quest Diagnostics collection network
Workers' Compensation	\$500,000	Not applicable — no W2 employees
Professional Liability / E&O	\$1,000,000 / \$2,000,000	Available upon contract execution

Certificate of Insurance (COI) with Macomb County named as Additional Insured will be provided upon contract execution.

In summary: DDI's certifications and insurance coverage meet or exceed every requirement in RFP 07-26. We share Macomb County's commitment to responsible, insured, and credentialed contracting. Here's the benchmark: every certification is current, every policy is active, and Macomb County will be named as Additional Insured. That's a concrete, verifiable checklist — not just a claim.

07 COMPLIANCE MATRIX

#	REQUIREMENT (RFP 07-26)	DEE DAVIS INC. COMPLIANCE	STATUS
1	Substance use testing for 5 Problem Solving Court programs (Adult Drug Court, Mental Health Court, DWI/Sobriety Court, Veterans Treatment Court, Swift & Sure)	DDI provides testing services for all five Macomb County Problem Solving Court programs with individualized protocols per presiding judge requirements.	COMPLIANT
2	7-day/week testing including holidays	Quest Diagnostics collection sites in Macomb County operate 7 days/week with extended hours. Holiday coverage confirmed.	COMPLIANT
3	Observed specimen collections	Certified collectors trained in observed collection protocols. Same-gender observers available at all locations.	COMPLIANT
4	Web-based case management system	Quest Diagnostics Employer Solutions portal provides real-time results, participant management, compliance reports, and randomization controls for Macomb County court staff.	COMPLIANT
5	Computer-generated randomization system	Statistically validated random selection algorithm with daily selections, multi-channel notification, and full audit trail.	COMPLIANT
6	GC/MS and LC/MS/MS laboratory confirmation	All presumptive positives confirmed via GC/MS or LC/MS/MS at SAMHSA-certified laboratories. Forensic-grade results.	COMPLIANT
7	Chain of custody — forensic evidentiary standards	Electronic chain-of-custody (eCCF) with unique specimen ID, tamper-evident seals, temperature verification, and court-ready documentation.	COMPLIANT
8	Photo ID verification at every collection	Government-issued photo ID verified at every specimen collection. No ID = no collection = reported as missed test.	COMPLIANT
9	Court testimony availability	Expert witnesses available for violation hearings, disciplinary proceedings, and contested results in Macomb County courts.	COMPLIANT
10	Medical Review Officer (MRO) review	Board-certified MRO reviews all non-negative results. Donor interviews conducted per SAMHSA/DOT MRO guidelines.	COMPLIANT
11	Multiple test methods: urine, oral swab, sweat patch, PBT	All four collection methods available at Macomb County sites: urine (rapid + lab), oral fluid, PharmChem sweat patch, and evidential breath test.	COMPLIANT
12	Insurance: GL \$1M/\$2M, Auto \$1M, WC \$500K, E&O \$1M/\$2M	DEE DAVIS INC. maintains Commercial General Liability at \$1M/\$2M through The Hartford (Policy 76 SBU	COMPLIANT — SEE

		BS3SZP — active through 04/28/2026). DDI operates as a licensed Contract Management TPA with no company-owned vehicles — commercial auto liability is maintained by Quest Diagnostics as the certified collection network partner. Workers Compensation is not applicable — DDI has no W2 employees; all specimen collection is performed by Quest Diagnostics certified personnel. Professional Liability/E&O documentation available upon contract execution. COI with Macomb County named as Additional Insured available at contract execution.	NOTES
13	Confidentiality per 42 CFR Part 2	All testing data protected under 42 CFR Part 2 (Substance Use Disorder Patient Records) and Michigan state privacy laws.	COMPLIANT
14	Physical submission: 1 original + 2 copies + USB	Proposal submitted as 1 signed original, 2 hard copies, and 1 unencrypted USB flash drive in sealed envelope.	COMPLIANT
