

# ACCOUNTS RECEIVABLE FINANCING

## HOW IT WORKS

SouthStar Capital takes your existing invoices and turns them into working capital:

- 1 You provide products or services to a credit worthy business on terms.
- 2 You send the invoice to your customer and SouthStar Capital.
- 3 SouthStar will verify the invoice then advance up to 70% - 90% of the invoice directly to you.
- 4 Your customer then pays the invoice via ACH, wire transfer, or a check made out to your company, but sent SouthStar Capital's lockbox.
- 5 SouthStar then sends you the invoice balance, less our fee.

You now have working capital available to enable such things as, making payroll, taking on new contracts, or growing your business.

## SOUTHSTAR ADVANTAGE

### NO DEBT IS ADDED TO YOUR BALANCE SHEET

SouthStar uses your invoices to advance your company working capital. By using assets you already possess, no debt is created to pay back.

### NO EQUITY IS REQUIRED, KEEP 100% OWNERSHIP

SouthStar does not require equity in your company. Our funding process provides solutions where you maintain full business ownership and control of your company.
